**“Let’s Help a Neighbour in Need!”**

## **Zoey Gilbertson**

**Zoey Gilbertson from Hagersville is a 1-year old little girl who suffers from a rare condition called Eosinophilic Gastro-intestinal Disease (EGID).**

**This is a very painful and destructive disease. Zoey is on strong steroids & must be fed by feeding tube indefinitely. As there is no treatment for EGID in Canada, so she requires treatment at Cincinnati Children’s Hospital, at a cost of \$60,000 which is not covered by our OHIP.**

**Unfortunately, Zoey’s 3-year-old brother is now also being tested for EGID and Zoey’s parents, Tyler & Rebecca, are very concerned for the well-being of their young family.**
