

The 8th Annual Caledonia Chili Cook-off

Presented by:
Knights of Columbus - Council 9300
Award Winning Community Event!

Lloyd McDonald

Lloyd is a kind-hearted grade 5 student who faces many daily challenges in the regular classroom setting due to a history of trauma in his early years. As a result, he has been receiving assistance from an FASD support worker through Haldimand Norfolk Reach. He would like to attend an alternative education program at an outdoor educational facility called “River Road Nature School”. He will be attending this facility one day per week during the entire 2024-25 school year, which will help him gain the strategies needed to be successful at school. It will also allow him to have the movement needed while learning which is something he will benefit from greatly. Lloyd has a deep interest in the outdoors and this outdoor learning would help him in a variety of areas including problem-solving and critical thinking in a hands-on outdoor environment.
